

7.3.1 Portray the Performance of the Institution in One Area Distinctive to its Priority and Thrust

HOLISTIC DEVELOPMENT

NEP 2020 requires education to be holistic in both purpose and learning. That means education should focus less on information and more on teaching students how to think critically and solve issues, how to be creative and multidisciplinary, and how to innovate, adapt, and absorb new material in unique and changing sectors. Keeping this in vision, Sarupathar College strives to foster a student-centered atmosphere for Holistic education. In doing so, it aims to provide its students with all of the knowledge and abilities they will need to face potential challenges in the future.

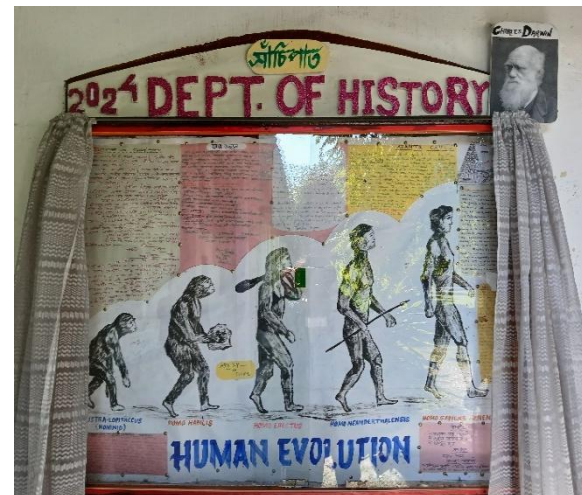

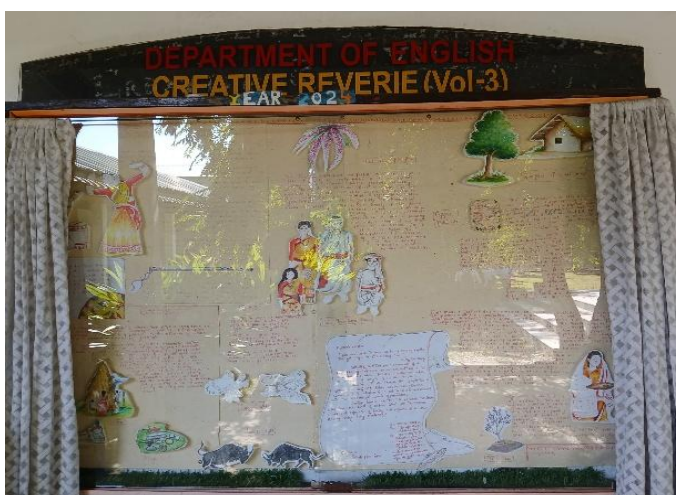

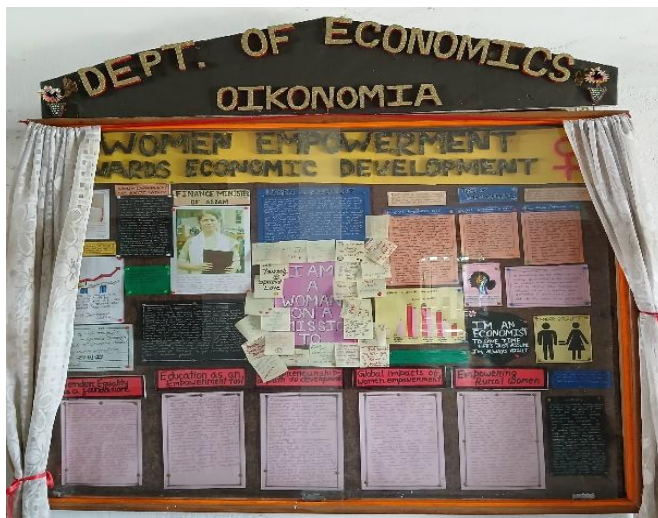

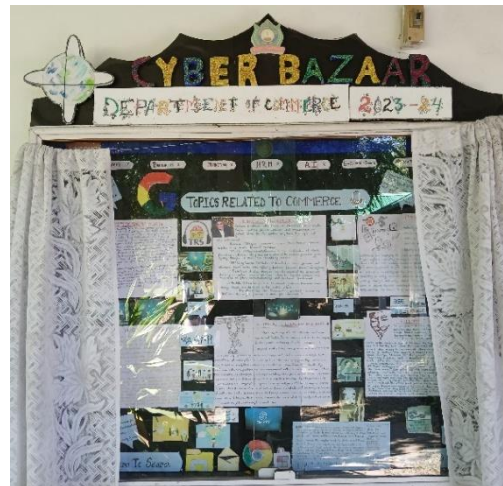

Morning Assembly:

Since 2022, Sarupathar College has been conducting an unusual practice known as Morning Assembly. It is a practice with which the college begins its day. Every morning at 10 a.m., the College holds a morning assembly in the presence of students, office assistants, administrators, and faculty. Here is a standard framework for conducting the Assembly. Each working day is divided among the different departments. The departments will delegate different student groups to represent them in front of the gathering. They will address the audience by presenting lectures on the significance of the day, news headlines, quiz, and a special lecture on a specific topic. The assembly concludes with the Asom Jatiya Sangeet.

Department Wall Magazines:

Every department of Sarupathar College publishes an annual wall magazine edited by students. Following is a list of Wal-Magazines.

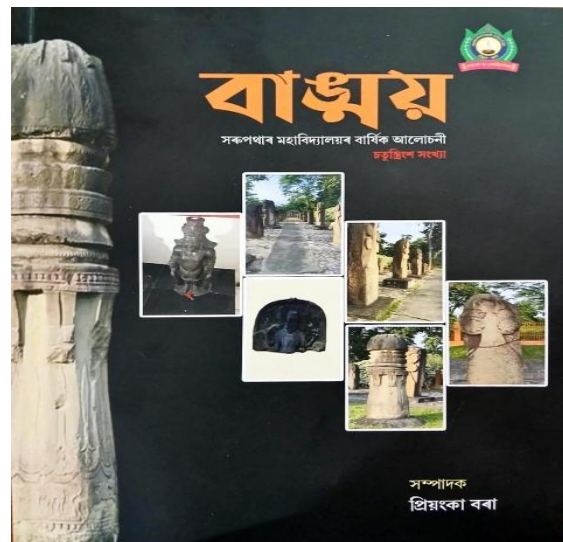

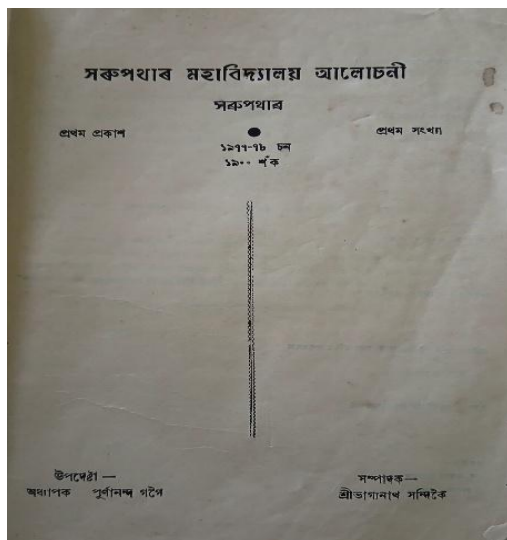

Bangmoy: The College Magazine

The students Union of Sarupathar College publishes an annual magazine known as Bangmoy, in which students publish their write-ups. Faculty members also contribute articles to the Bangmoy and assist students with editing and publishing their writings.

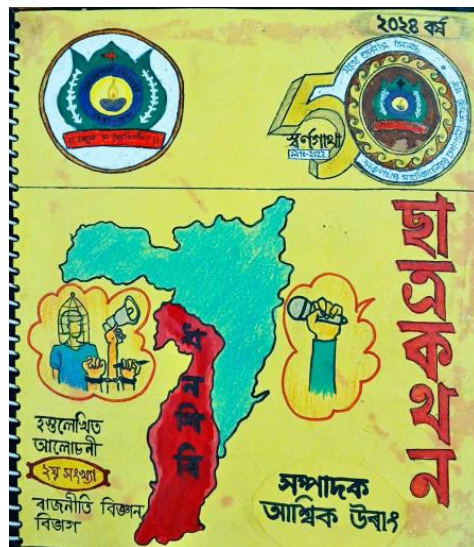

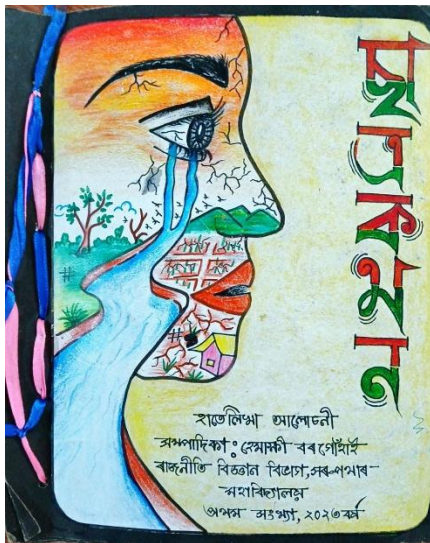

Year of First Publication: 1977-78

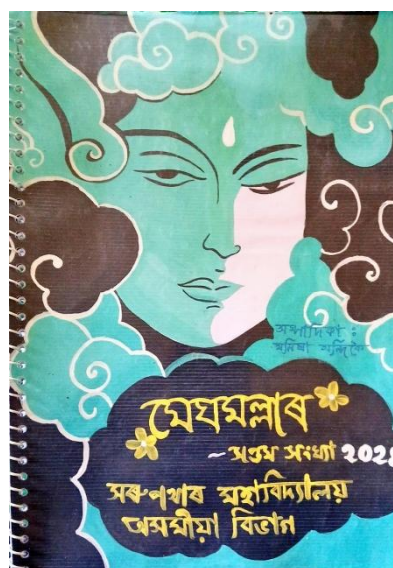

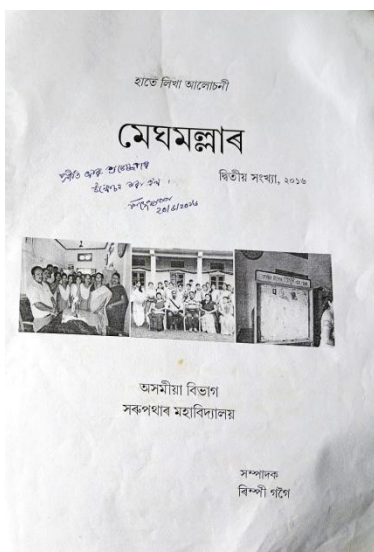

Hand Written Magazine

Every year, students of Sarupathar College publish a bundle of handwritten magazines, which is a unique practice in today's digital age. The following is a list of handwritten magazines available on campus

Chatrakathan: Chatrakathan is the name of the handwritten magazine published by students of the Department of Political Science.

Megh-Mollar: Megh-Mollar is a handwritten magazine published by students of the Department of Assamese.

Dhansiri: The making of the Village: Dhansiri: The making of the Village is the handwritten magazine published by students of the History Department.

Career Guidance and Counselling Programmes:

In collaboration with the Career Counselling Cell and Placement Cell, Students' Union of the college organises career counselling programs for creating awareness among students about the new areas of employability. For the purpose, it organises workshops and training programs with experts invited from different professions.

The Department of Economics, in collaboration with the Career Guidance Cell, organized a **one-day training program on vermicomposting in 2023**. The program aimed to educate participants on sustainable waste management and organic farming practices. Experts demonstrated the process of vermicomposting, highlighting its economic and environmental benefits. The interactive session provided hands-on experience and encouraged students to explore entrepreneurship in organic agriculture. The initiative aligned with the department's commitment to promoting sustainable livelihoods and skill development.

SARUPATHAR COLLEGE
Nestled in the picturesque landscape of Assam, Sarupathar College stands as a beacon of knowledge and community service since its establishment in 1970. For over five decades, this esteemed institution has been dedicated to nurturing minds and fostering academic excellence. As it continues to evolve and expand its horizons, in harmony with the illustrious two-century legacy of the tea industry, Sarupathar College proudly unveils a distinguished new offering: a One-Year Certificate Course."

WHY CHOOSE THIS COURSE ?

1. Approved by Assam Agricultural University
2. 100% Placement
3. Rich Legacy of Excellence
4. Comprehensive Curriculum
5. Strategic Location
6. Experienced Faculty and State-of-the-Art Facilities

ONE YEAR CERTIFICATE COURSE ON "COMPREHENSIVE TEA TECHNOLOGY AND MANAGEMENT"

EXCEPTIONALLY MINIMAL FEE
Join our One Certificate Course in "Comprehensive Tea Technology and Management" at Sarupathar College, offered at an incredibly minimal fee. Experience quality education that's accessible to all, ensuring your path to success in the tea industry is both affordable and exceptional.

ADMISSION FEE: ₹ 18000
MONTHLY FEE: ₹ 2000

CONTACT US:

1. Dr. Prapti Thakur, Principal, Sarupathar College (7002066042)
2. Mr. Satyabrata Chatterjee, Assistant Professor (9638148188)
3. Dr. Bidan Khandaker, Assistant Professor (9401105383)
4. Mr. Pranjali Dutta, Assistant Professor (7896444525)
5. Dr. Sanjay Bora, Assistant Professor (7896750855)
6. Mr. Ajay Kanol, Entrepreneur (9810869779)

WHO IS ELIGIBLE ?
FOR THIS PRESTIGIOUS COURSE, A GRADUATION DEGREE IN ANY DISCIPLINE IS THE MINIMUM QUALIFICATION REQUIRED, ENSURING A DIVERSE AND WELL-ROUNDED COHORT OF LEARNERS.

LIMITED SEAT OF 20 PARTICIPANTS
ADMISSION STARTS FROM JULY 2024
CLASS STARTS FROM AUGUST 2024

Sarupathar College introduced a one-year Certificate Course on **Comprehensive Tea Technology and Management** in the 2023 academic year as part of its Career Guidance Cell. The course aims to equip students with in-depth knowledge of tea cultivation, processing,

marketing, and management. A total of 27 students enrolled in the program, which has been running smoothly, providing practical and theoretical insights into the tea industry. This initiative aligns with the college's efforts to enhance skill development and employment opportunities in the tea sector.

The Department of Commerce, Sarupathar College, in collaboration with the National Skill Development Corporation (NSDC), organized a seminar on ***Employability and Career Guidance*** on 12th March, 2024. The event aimed to equip students with essential skills and insights into career opportunities, emphasizing industry trends and job readiness. Experts from NSDC provided valuable guidance on skill development, career planning, and the evolving job market. The seminar served as an interactive platform for students to explore diverse career paths and gain practical knowledge to enhance their employability.

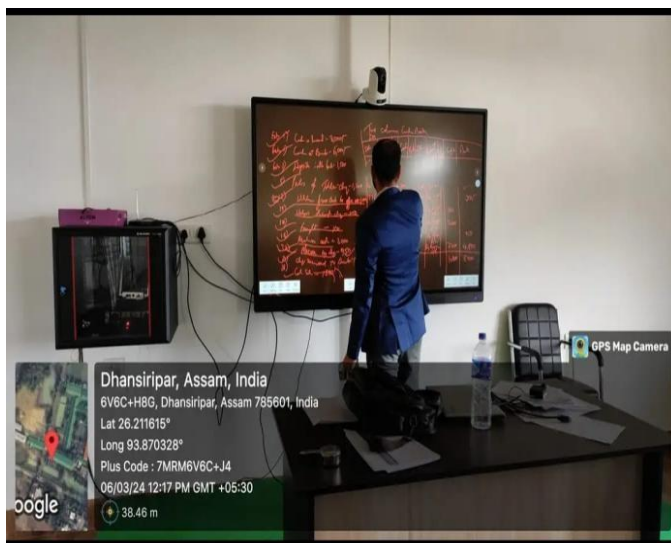

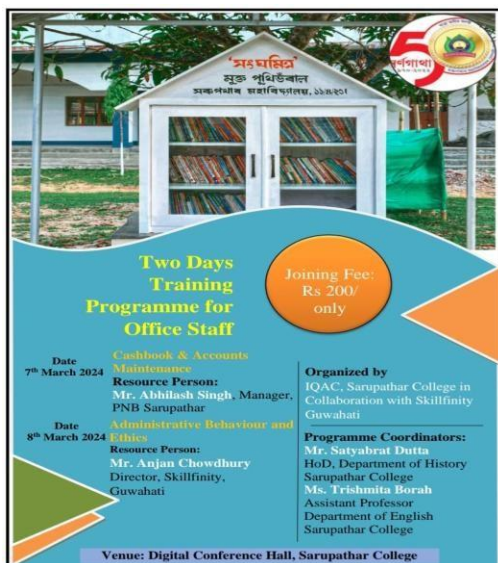

The **Internal Quality Assurance Cell (IQAC)** of **Sarupathar College**, in collaboration with **Skillfinity, Guwahati**, organized a **two-day Employment Enhancement Training Program** from **5th March to 6th March 2024**. The program aimed to equip students with essential employability skills, including communication, resume building, and interview techniques. Experts from Skillfinity conducted interactive sessions to enhance students' confidence and career readiness. The initiative reflects the college's commitment to bridging the gap between academic learning and industry requirements, preparing students for a competitive job market.

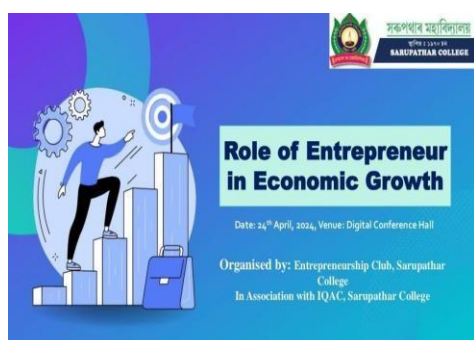

The **Internal Quality Assurance Cell (IQAC)** of **Sarupathar College**, in collaboration with **Skillfinity, Guwahati**, successfully organized a **Short-Term Training Programme (FDP)** on **"Changing Parameters of NAAC Accreditation"** from **4th March to 8th March 2024**. The program aimed to equip teachers with updated knowledge on the evolving assessment criteria of NAAC, enhancing institutional preparedness for accreditation. Experts from the field provided insightful sessions, fostering academic excellence and quality enhancement in higher education institutions.

The **Internal Quality Assurance Cell (IQAC)** of **Sarupathar College**, in collaboration with **Skillfinity, Guwahati**, is organizing a **two-day training programme for office staff** on **7th and 8th March 2024**. This initiative aims to enhance the administrative efficiency and technical skills of the staff, equipping them with modern office management practices. The training will cover key aspects of documentation, digital tools, and professional communication, ensuring better workflow and service delivery in the institution.

On April 24, 2024, the Entrepreneurship Club, under the Career Guidance Cell, in collaboration with the IQAC Cell of Sarupathar College, organized an insightful session on the **Role of Entrepreneurs in Economic Growth**. Entrepreneurs are the backbone of economic development, driving innovation, generating employment, and fostering competition. By introducing new products and services, they enhance productivity and contribute to national income. Additionally, their ventures attract investments and stimulate regional development, ultimately leading to a more dynamic and resilient economy. This event highlighted the crucial role entrepreneurs play in shaping a sustainable and prosperous future.

The Finance Club, under the Career Guidance Cell, in association with the IQAC of Sarupathar College, organized an **Awareness Program on Financial Literacy** on **26th April 2024**. The session aimed to equip students with essential financial knowledge, covering topics like

budgeting, savings, investments, and responsible financial decision-making. Experts shared valuable insights on managing personal finances and the importance of financial planning for a secure future. The program successfully enhanced financial awareness among students, encouraging them to develop sound financial habits.

A training program on "**Agri-Startups for Better Employability of Students**" was organized by **Krishi Vigyan Kendra, Assam Agricultural University**, in collaboration with **Sarupathar College** on **27th February 2024**. The program aimed to equip students with entrepreneurial skills and knowledge in the agri-startup ecosystem, fostering self-employment opportunities in the agricultural sector. Experts from the field provided insights into innovation, value addition, and sustainable agribusiness models, encouraging students to explore agriculture as a viable career path. The initiative sought to bridge the gap between academics and practical enterprise development, promoting rural entrepreneurship and economic growth.

Sarupathar College, under its Career Guidance Cell, organized a three-day workshop aimed at helping students prepare for the 3rd and 4th grade recruitment exams.

The workshop provided in-depth sessions on effective exam strategies, time management, and subject-specific preparation. Expert faculty members led interactive discussions, offering valuable insights and practice materials. Additionally, mock tests and guidance on building strong resumes were provided, helping students enhance their chances of success in competitive recruitment exams.

The workshop served as an excellent platform for students to gain confidence and clarity for their future careers.

Sports Coaching:

The Students Union holds regular training programs for students in different sports such as football, volleyball and Kho-Kho. This training programs have been proved successful in bringing laurels to the college.

Infrastructure and Physical Facilities

Sarupathar College has a well maintained, spacious, accessible eco-friendly infrastructure facilities. The also has different types of ICT facilities. Given below is the list of infrastructure facilities present in the campus-

S.no	Purpose	Facility
1	Building infrastructure	Administrative block (A)
		Administration block (B)
		Openstage (2 Nos.)
		Auditorium
		Library
2	Academic learning	Classrooms
		Tutorial rooms
		Computer lab (1 Nos.)
		Education department lab (1 Nos.)
		Separate common rooms for girls and boys
		Conference/Seminar halls (2 Nos.)
3	Physical fitness and sports	Indoor Stadium
		Gymnasium
		Sports field
4	Support facilities	Open Library
		Students' Corner 'Chatrabandhu'
		Photocopy unit
		Staff cafeteria
		Student cafeteria
		Re-Craft Park
		Internal parking
		Hostel for boys and girls'
		Lobby for visitors
		Separate IQAC/NCC/NSS/Students' Union Room

		Museum
		Guest House
		Cloth Bank
		Ramp/wheelchair/separate toilet facilities for Differently abled students

Best Department Award:

The Best Department Award is a special accolade at Sarupathar College that was introduced in 2022. The department that gets the highest gold medals during Annual College Week events is awarded 'The Best Department Award'. Since the announcement of the award, the Annual College Week has become one of the most popular events for students. The Political

Human Health and Safety Management

Health Awareness Programmes

One of the most focused services that the organization has been providing for the past few years is conducting health awareness and check-up camps. Every first Saturday of the month, the institution hosts a free health camp for teachers, staff members, students, and local residents near the college campus. Sarupathar College collaborates with Community Health Centre (CHC) Sarupathar to arrange free medical camps in its adopted villages. Furthermore, the college offers a Certificate Course in Yoga, which is open to everyone. The Student Union's sports department provides fitness camps for a variety of sports for both boys and girls. The women's cell raises awareness and distributes sanitary pads to female college students.

Blood Donation Camps (Good Quality Photographs):

During the year, the Red Ribbon Club (RRC), NSS Unit, and NCC Unit of Sarupathar College organize multiple blood donation camps in collaboration with the Blood Centre S.K.K Civil Hospital, Golaghat.

Waste Management

Waste generates a considerable quantity of litter, which contributes to health concerns. Institutional operations create a variety of wastes that must be properly handled, stored, collected, and disposed of in order to minimise dangers to the environment and public health. The College has made several trash control efforts and endeavours. On the College campus, wastes from various sources are meticulously separated for appropriate disposal. Diverse garbage containers are designated for the collection of various types of waste. The Institute places a premium on environmental health and has contributed to the sustainability of future generations throughout the years. Institutional wastes are often classified into three primary categories: solid, liquid, and e-waste. As shown below, several methods were applied to sort and dispose of these wastes. Sarupathar College and the Sarupathar Municipality Board (SMB) have signed a Memorandum of Understanding to facilitate the process. The SMB collects rubbish from the college campus every month and disposes of it properly.

Solid Waste Management

Pollution from garbage is unpleasant and contributes significantly to litter in our neighbourhoods, which may cause health concerns. Biodegradable, non-biodegradable, and hazardous waste are the three forms of solid waste. Food trash, canteen garbage, and toilet waste are all examples of biodegradable waste. Plastic, tins, and glass bottles are all examples of non-biodegradable garbage. Hazardous trash includes cleaning chemicals, acids, and laboratory chemicals. Each department at Sarupathar College, as well as administrative offices, generates garbage that is deposited in the department's small waste bin. Each building has multiple dustbins from which cleaning personnel collects rubbish.

Vermi-composting units located within the college campus successfully convert biodegradable wastes to fertiliser. This fertiliser is utilised in the college's fruit orchard and flower garden. Sarupathar College actively opposes the usage of plastic on campus, especially single-use plastics. The college campus has been designated a "Plastic-Free Zone." The College generates a significant amount of paper trash. Paper wastes from Academic Blocks, Libraries, Exam Conduction, Administrative Offices, and Hostels are carefully piled in specified areas and then disposed of properly via vendors. The College supports the use of digital platforms for communication and document exchange in order to lessen reliance on paper.

Liquid waste management

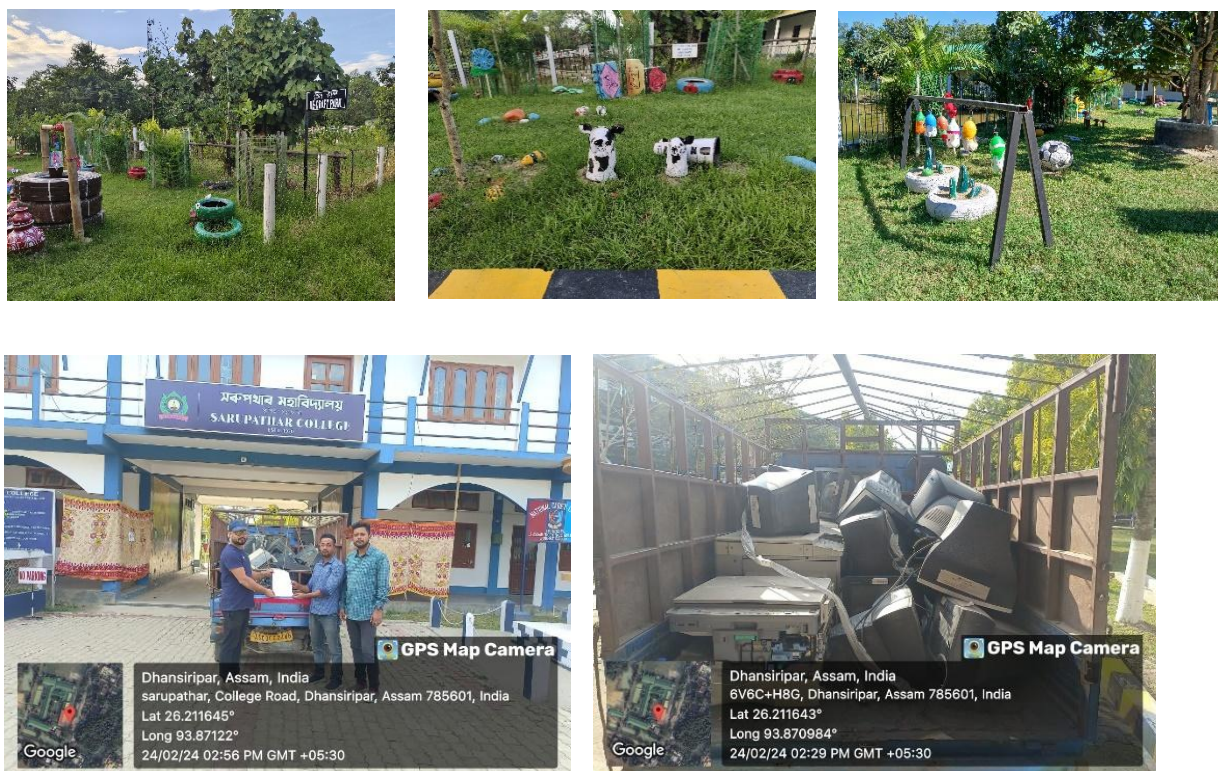

Hostel sewage and canteen effluent waste are the most common liquid wastes created on campus. Following are the measures taken for liquid waste management:

1. Septic tanks are situated across campus and collect waste water from the toilets.
2. During dry seasons, the waste water from the College Canteen is collected and utilised to irrigate the flower beds. The college do not have any sewage treatment plant yet.

E-waste management

Sarupathar College has a highly effective system in place to dispose of E-waste from diverse sources. Computer labs, academic and administrative offices all produce e-waste. Lab instruments, circuits, desktops, laptops and accessories, printers, charging and network cables, Wi-Fi devices, cartridges, sound systems, display units, UPS, Biometric Machine, scientific instruments, and so on are all examples of e-waste. All of these wastes are put to the best possible use. All of the equipment that cannot be reused or repurposed is disposed of by approved suppliers. For technological upgrades, the Buy-Back option is chosen over a fresh purchase. Furthermore, Sarupathar College has recently come to an arrangement with a Calcutta-based company called **Hulladeck Recycling Pvt. Ltd.** to dispose of e-wastes for recycling and reuse. As a part of its e-waste management efforts, the College has created an e-waste park on campus called **Srijan Kanon: Re-craft Park**, which uses e-waste to produce amusement and awareness about e-waste management.

Energy Consumption and Management

Energy is a basic requirement for economic development in almost all major sectors of Indian economy i.e., agriculture, industry, transport, commercial, residential (domestic) and educational institutions. Consequently, consumption of energy in different forms has been steadily rising all over the country, which has maintained a steady growth pattern in the past and the trend is likely to continue in future as well. This has increased the dependence of the state on fossil fuels and electricity. The Government of India enacted the Energy Conservation Act, 2001 in October 2001, became effective from 1st March, 2002. The Act provides for

institutionalizing and strengthening delivery mechanism for energy efficiency programs in the country and provides a framework for the much-needed coordination between various Government entities. Sarupathar College, Sarupathar an educational institute in Golaghat district of Assam taking voluntary objective of reducing energy intensity in the College Campus.

Sarupathar College has tried to lower its energy bills throughout the years by focussing on non-traditional sources of energy, particularly solar power, which is a completely clean and inexhaustible energy source. Solar for educational establishments is an excellent concept because it reduces the price of delivering electricity. For this goal, the institution has erected a 30 KW solar park and 14 solar-powered street lights on campus. Furthermore, to reduce energy consumption, Sarupathar College has replaced traditional energy-consuming incandescent bulbs with LED bulbs and tube lights in its classrooms, offices, libraries, and hostels. Every year, an expert team conducts an energy audit to hold the institution accountable for its energy consumption.
